Ford Total Loss Avoidance through PartsPlus

Ford Motor Company via PartsPlus offer a Total Loss Avoidance programme, where any Ford vehicle that may potentially be categorised as an S or N write off, may receive a contribution towards the cost of Ford Parts, reducing the overall cost of the repair.

The programme is available for any Ford vehicle that may potentially be categorised as an S or N Write-off where the Parts are supplied via PartsPlus.

The following category descriptions apply:

- **S - Structural:** Repairable vehicle that has sustained damage to any Part of the structural frame or chassis, but decision taken not to repair
- **N - Non-Structural:** Repairable vehicle that has not sustained damage to any Part of the structural frame or chassis, but decision taken not to repair

On request, Ford Motor Company, via PartsPlus may offer a contribution towards the cost of Ford OE Parts, reducing the overall cost of repair. This may make the repair financially viable, preventing the vehicle being declared a Total Loss.

To contact the Total Loss Avoidance team, email: tla@PartsPlusUK.com

Step One

Visit <https://bit.ly/4l8SXTU> to complete the required form and email to the PartsPlus Total Loss Avoidance Team by emailing tla@PartsPlusUK.com

Step Two

The PartsPlus Total Loss Avoidance Team will respond via email with the offer of support available within 24 working hours. Any offer of support will be based on an increased discount on the Parts, vs the normal discount terms received from PartsPlus. The level of support available, will be calculated on the information provided in Step One.

Step Three

Communicate the assessment to the Insurance Provider as normal but ensure to notify them of the contribution offered by PartsPlus.

Step Four

If the Insurance Provider now authorises repair of the vehicle, order the Parts from the PartsPlus Total Loss Avoidance Team at the enhanced discount terms in line with the offer received (Please note: Ford OE Parts must be used in all elements of the repair to qualify for the enhanced discount. If any non-OE Parts are used, no contribution from Ford is available).

Step Five

Once the repair is complete, raise the invoice to the Work Provider as normal.

This invoice must show clearly that the contribution from Ford has been deducted from the total cost of repair. A copy of the invoice should be provided to PartsPlus via emailing: tla@PartsPlusUK.com

FORD FIESTA PRIMED BUMPERS. REDUCE REPAIR TIMES NOW!

We are pleased to offer Ford Fiesta Primed Bumpers, in addition to our existing painted Bumpers.

Browse the available products below.

Part Number	Model	Year Range	Position

1847466	Fiesta	2013 - 2019	ST Models

Order Fiesta primed Bumpers from your local PartsPlus Centre, by phone, email or on our App

Total Loss Avoidance Terms and Conditions: Only repairs completed on Ford vehicles are eligible for support under this programme. The vehicles must be considered as a Category G or Category N. The total RRP of Ford OE Parts must exceed £250.00 excluding VAT. The difference between the total assessment value and the estimated write-off threshold must exceed £50.00 including VAT. The assessment must show Ford OE Part Numbers. If any non-OE Parts are included in the assessment the claim may be returned for recalculation using Ford OE Part details. If the assessment is significantly revised after the initial offer from Ford Motor Company, via PartsPlus, the request for enhanced discounts must be re-submitted and the offer will be reviewed. The contribution from Ford Motor Company, via PartsPlus will not include VAT. The invoice to the Work Provider must be provided clearly showing the contribution from Ford Motor Company, via PartsPlus. Ford OE Parts must be used throughout the repair to qualify for the contribution from Ford Motor Company, via PartsPlus. For more information, please contact your local PartsPlus Centre.
