

## Our Range of Engine Oils

# Castrol EDGE Professional

Castrol EDGE is Castrol's premium, most advanced range of synthetic Engine Oils designed to meet the needs of newer, more technologically advanced Engines.

Modern Engines are smaller and more efficient, without sacrificing performance. The intense pressures in today's Engines cause friction which can waste up to 10% of Engine performance. For today's drivers, losing Engine performance is simply not an option.

Castrol EDGE with Fluid TITANIUM transforms to be stronger under pressure and reduces friction to unlock true Engine performance.

Castrol EDGE Professional is now certified CO<sub>2</sub> neutral according to the highest global standards. Engineered with Micro-Filtration in order to meet Castrol Professional's new quality standard and verified using Castrol's new Optical Particle Measurement System (OPMS) to guarantee product quality.

EDGE Professional A3 0W-40 is the recommended Oil for the Ford Focus RS Petrol Engine.

## UNLOCK THE TRUE PERFORMANCE OF YOUR ENGINE

**0W-40**

# Castrol EDGE Supercar

Castrol EDGE is boosted with TITANIUM Fluid Strength Technology™ doubling its film strength and reducing friction by up to 15%.

Castrol EDGE SUPERCAR is the premium variant in the Castrol EDGE portfolio generating phenomenal amounts of horsepower. Supercar Engine pressures have almost doubled over the past 10 years, so we have partnered with a selection of the world's leading supercar manufacturers to test and constantly improve our Oils. Castrol has also spent decades in partnership with some of the leading motorsport teams.

Castrol EDGE SUPERCAR is used by motorsport teams for maximum strength, minimum friction and greatest Engine endurance – allowing it to perform in moments of intense pressure.

Castrol EDGE SUPERCAR is the ultimate proof that our Oils are tested to perform and the natural choice for those who want the best for their Engines.

**EDGE Supercar 5W-50 is the recommended Oil for the Ford GT.**

## UNLOCK EXHILARATING PERFORMANCE

**CASTROL EDGE  
SUPERCAR IS THE  
IDEAL LUBRICANT  
FOR DRIVERS WHO  
DEMAND NOTHING  
BUT THE BEST  
FOR THEIR ENGINE**

# Ford Castrol

Ford-Castrol MAGNATEC intelligent molecules protect from the moment you start. They cling to the Engine like a magnet providing an extra layer of protection, dramatically reducing\* Engine wear.

## Instant Protection From The Moment You Start

- Cling to critical Engine parts when the Oil drains down.
- Cling to your Engine forming an extra layer that protects from the moment you start.
- Bond to metal surfaces to make Engine parts more resistant to wear.
- Provide continuous protection for all driving conditions, styles and temperatures.

**Ford-Castrol MAGNATEC is certified CO<sub>2</sub> neutral according to the highest global standards. The CO<sub>2</sub> impact of this product has been neutralised in partnership with BP Target Neutral. Castrol and BP Target Neutral are BP Group brands.**

# Ford Motorcraft

High performance motor Oil with synthetic technology and fuel economy. Suitable for Ford cars with petrol and diesel Engines which have been in service for more than 4 years and whose Engines require additional care.

## FORD MOTORCRAFT A5 5W-30 PROVIDES:

- + High protection for modern gasoline and diesel Engines
- + Very good cold start properties at low temperatures and quick Oil supply particularly during cold starts, ensuring better lubrication of the Engine components and lower cold start wear
- + Compatibility with after treatment devices for those Engines equipped with a diesel particulate filter

# Ford Omnicraft

Omnicraft is an advanced technology, synthetic Oil for modern petrol and diesel Engines. It meets high quality standards, facilitating optimum Engine performance and extended component life by virtue of fast and effective lubrication across a wide temperature range.

## OMNICRAFT PRODUCTS PROVIDE:

- + Advanced protection under a variety of driving conditions and temperatures
- + Very good Engine cleanliness
- + Fast lubrication at start-up and during warm-up
- + Reduced Oil consumption
- + Flexible drain interval capability where prescribed by manufacturer
